Frequently Asked Questions

What if I don't want to move my slides into Kodak carousels?

We can do it for you! It will increase the price to our "Loose Slides" pricing.

What if I don't have enough slides to fill the entire carousel?

As long as you have 46 or more slides, "Carousel Pricing" will be the best deal for you. If you have less than 46 slides, "Loose Slides" will be your best pricing option.

What if I have a square picture slide?

Our system is set up for 35mm slides. Square slides can be scanned, but some of the image will be cut off. See back of brochure for more information.

I don't want to cut off my vertical photo. What can I do to avoid my picture being cut off?

As long as your slide is inserted properly (horizontally) into the carousel, it will be scanned correctly.

Will I get my slides back?

Of course! Once we have finished the scanning process, you will get your slides back along with your digital files.

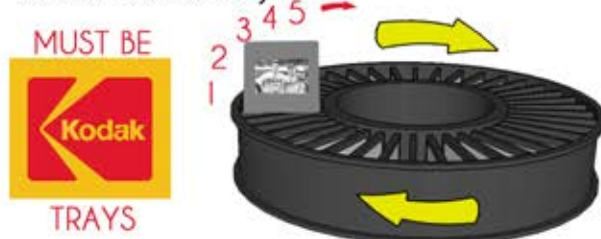

Filling Your Carousel

Slides should be loaded right side up & front facing ("shiny side" forward).

Vertical slides must be turned horizontally to be scanned correctly.

Slides should then be inserted into the carousel "Clockwise" with the front facing you.

How different slides will scan in a carousel:

35 mm

Whole image scanned

126

Part of top and bottom will be CUT OFF

110

Black around edges

35 mm Half Frame

Black around edges

127

Top, bottom, and sides will be CUT OFF

Don't want your image cut off?
Flatbed Scanning available
for \$12.00 a slide.
